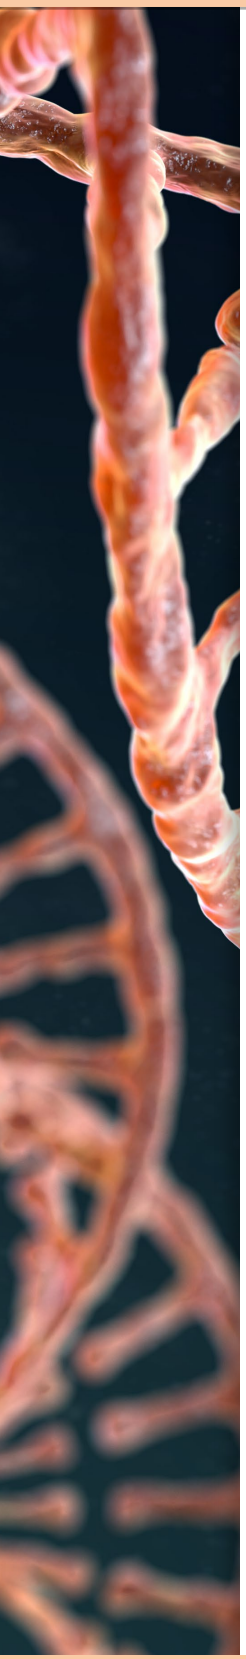
OROCHEM
Molecular Purification by Design

ISO 9001:2015

Oligonucleotides

synthesis and analysis



Orochem offers customized tools from synthesis to purification

- From lab scale to prep scale
- Both Orochem brand or white label products

Featured products

Orochem 96-Well Synthesis Plates

- 0.7 mL and 2 mL/well
- 7-, 10-, and 20- micron frits
- Available empty plate for customer choice of solid supports
- Available pre-packed with ZARA CPG

Orochem 96-Well Oroflex Filter Plates

- 0.7 mL and 2 mL/well
- 7-, 10-, and 20- micron frits

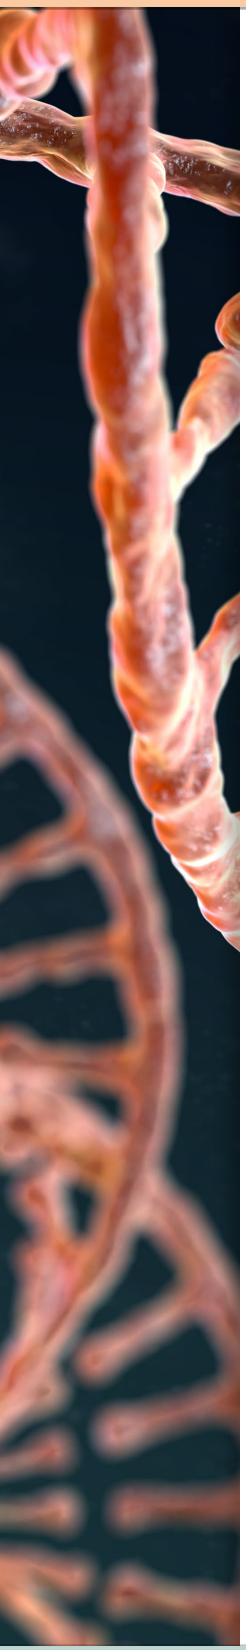
info@orochem.com Tel: 630 210 8300 www.orochem.com

OROCHEM
Molecular Purification by Design

ISO 9001:2015

Oligonucleotides

synthesis and analysis



ZARA Oligo Deprotection Kit

- Rapid process for the cleavage, deprotection and recovery
- Perform at room temperature under organic condition
- Reduce the process time to 2 hours
- Easily automated

Phosphoramidites

for nucleic acid synthesis

DNA amidites, such as dA-N-Bz CEP, dC-N-Ac CEP, dG-N-Ac CEP and T-CEP

Formats:

0.5, 1, 5, 10 g, and custom packing

EZPRESS positive pressure processors

Formats:

96-well plate
48 cartridges

HPLC and UHPLC columns

Orochem's high quality Orosil Gold and Reliasil C18, C8, 300A and 100A columns.

QUIKVAP evaporators

Format:

Single and double 96-well plate formats

Oligo Synthesis Services

- DNA, RNA, DHA-RNA hybrid
- Available desalted, OPC or HPLC-RP purification
